Special Issue

Embracing Circular Economy and Renewable Energy Systems Through Socio-Technical Innovation

Message from the Guest Editors

Establishing and consolidating circularity within the current economic landscape is crucial for Sustainable Development. The latest technological trends, including the proliferation of AI technology in the context of a data-intensive society, intrinsically suggest a sociotechnical approach to designing realistic and functional strategies for Circular Economic (CE) and Renewable Energy Systems (RE). While tech-driven and social innovation may both be considered stand-alone determinants for effective implementation, cutting-edge solutions may be based on strengthened synergy involving both determinants. This Special Issue welcomes original research articles and reviews of this broad topic. For more information please check https://www.mdpi.com/journal/sustainability/spe cial issues/US4V5XL1CJ

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
