# Urban Sustainability: Green Public Procurement and Sustainable Consumption Behavior

### Message from the Guest Editor

Sustainable consumer behavior endeavors to meet current demands while at the same moment furthering or curbing environmental impact. Green public procurement represents a process through which public authorities aim to acquire products, services, and works having a diminished environmental impact during their entire life cycle. A robust incentive for eco-innovation, green public procurement has as a condition the encompassing of comprehensible and concrete low-carbon standards for products and services...
