Urban Sustainability: Green Public Procurement and Sustainable Consumption Behavior

Message from the Guest Editor

Sustainable consumer behavior endeavors to meet current demands while at the same moment furthering or curbing environmental impact. Green public procurement represents a process through which public authorities aim to acquire products, services, and works having a diminished environmental impact during their entire life cycle. A robust incentive for eco-innovation, green public procurement has as a condition the encompassing of comprehensible and concrete low-carbon standards for products and services...
