

Special Issue

Going Underground. Making Heritage Sustainable

Message from the Guest Editors

This Special Issue aims at stimulating multidisciplinary papers and the cross-fertilization of knowledge among scientists (i.e., historians, architects, engineers, archaeologists, planners, geologists, etc.), practitioners, public officials, and technicians, such interdisciplinary initiatives being rather limited in the field of underground space. This issue would like to introduce tools, suitable for both neighborhood and district planning level and for single UBH interventions, very flexible for upscaling and easily replicable in different social, economic, and cultural urban regeneration contexts, characterized by different underground sites, local service demand, touristic potential, legal frameworks, and stakeholders.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
