Special Issue

A Systemic Perspective on Urban Food Supply: Assessing Different Types of Urban Agriculture

Message from the Guest Editors

Today's society is facing a range of challenges connected with urbanization such as climate change. social segregation, or resource depletion. The production of food within cities through urban agriculture can be considered as a nature-based solution contributing to climate change mitigation and adaptation, food security, biodiversity and ecosystem services, agricultural intensification, resource efficiency, urban renewal and regeneration, land management, public health, social cohesion, cultural traditions, and economic growth. This Special Issue aims to show up the current international state of the art in conceptualizing different types of urban agriculture, evaluating their different multifunctional impacts and ecosystem services, as well as developing and evaluating planning strategies for implementing urban agriculture on different scales.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
