

Special Issue

Urban Forestry and Urban Green Management: Promoting Sustainable Urban Tree Populations

Message from the Guest Editor

In this Issue, we aim to invite papers that promote sustainable urban forests. We broadly define sustainable urban forests as meeting the future needs of people through economic practice that promotes the social and ecological needs of a community. We invite authors to submit papers for publication with a focus on sustainable urban forestry and urban greenspace management. Topical areas should involve some aspect of sustainable practice through urban forestry and urban greenspace management through examples such as:

- Arboricultural practice;
- Growth and longevity;
- Inventory and assessment;
- Planting practice;
- Urban forest economics;
- Urban tree canopy; and
- Urban tree health.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
