

Special Issue

Sustainability and Urban National Parks

Message from the Guest Editor

Sustainability is an increasingly important challenge that confronts national parks around the world. This Special Issue highlights the diverse range of sustainability challenges in urban national parks. This Special Issue invites theoretical and empirical studies on the following sustainability challenges in urban national parks, although other relevant topics will also be considered:

- Ecological: climate change and resilience, air pollution, water pollution, biodiversity, ecosystem services, green infrastructure, the ecological pressure/impacts from tourism and urbanization;
- Economic: financial challenges in maintenance and development, sustainable tourism/ecotourism;
- Equity/Social: access and equity for all urban residents, heritage and historic conservation, community engagement and participation, educational programming, culturally relevant programming and interpretation and the ability to be relevant to new populations, dealing with a history of racism/sexism in interpretation, policy and management.

For further reading, please visit the [Special Issue Website](#).

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
