Urban Renewal, Governance and Sustainable Development: More of the Same or New Paths?

Message from the Guest Editor

Today, “slim”, “slow”, “de-growth”, and “LoTek” cities are among alternatives to the still strong technodigital strand of urban renewal visions. Do these and similar signposts just indicate the reinventions old ideas and practices, or do they imply for more healthy, democratic and sustainable ways of handle major threats and risks?

Governance research has become strikingly multifaceted in terms of theory, methods and empirical focus. This Special Issue of Sustainability asks for contributions addressing innovative governance responses to current epidemiological, social, ecological, political and economic challenges. Encouraging theoretical and methodological plurality, the Call welcomes contributions addressing urban renewal, governance and sustainability ideas and practices in the form of conceptual reflections, single case studies, comparative studies or broader overviews in various national contexts.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
