

Special Issue

Recent Advances in Biomass Conversion, Renewable Energy, and Biomaterials—2nd Edition

Message from the Guest Editors

In this Special Issue, original research articles and reviews dealing with agricultural and natural resource utilization via chemical and biological conversion approaches are welcome. Research areas include (but are not limited to) the following:

- Agricultural sustainability and management;
- Bioactive products;
- Biomass conversion and refinery process;
- Bio-renewable materials;
- Biomass-derived renewable energy;
- Biomaterials as support platforms for renewable energy production;
- Biomaterials for sustainability;
- Biofuels process;
- Biotechnologies applied for renewable energies;
- Chemical and biological conversions;
- Industrial agricultural and forestry products;
- Industrial application of biorefinery;
- Precision agriculture for sustainability;
- Systems and technologies for improving biomass conversion.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
