Special Issue

Sustainability Pathways in Biomass and Agricultural Resource Utilization

Message from the Guest Editor

This Special Issue, entitled "Sustainability Pathways in Biomass and Agricultural Resource Utilization", explores the innovative strategies and practices in promoting the sustainable use of biomass and agricultural resources. It highlights research on converting biomass into renewable energy, bioproducts, and bio-based materials while ensuring environmental conservation. This Issue emphasizes resource-efficient technologies, circular economy principles, and sustainable farming practices that minimize waste and carbon emissions. It also examines socio-economic and policy frameworks to support the adoption of sustainable solutions in agriculture and biomass industries. By addressing challenges like climate change, resource scarcity, and food security, this Issue aims to contribute to the global transition toward a more sustainable and resilient bioeconomy.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
