Biodiversity Conservation and Ecosystem Services in Agricultural Landscapes

Message from the Guest Editor

Biodiversity conservation and agriculture are increasingly considered to be in contrast. The recent declines in the diversity of genotypes, species, and habitats have been connected to intensive agricultural production. Agricultural sustainable intensification—an emerging paradigm of agricultural, biological, and environmental sciences—looks at whole landscapes, territories, and ecosystems to optimize resource utilization and management and to increase the “knowledge per hectare”. This Special Issue promotes selected papers which focus on the identification of strategies to enhance conservation of biodiversity in agricultural landscapes, on the quantification of ecosystem services to benefit agricultural systems, and on increasing their resilience and reducing environmental footprint, land protection, and conservation.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
