

Special Issue

A Circular Economy for a Cleaner Built Environment

Message from the Guest Editor

This Special Issue focuses on the circular economy in the built environment. Papers may focus on the implementation of the circular economy and applications of principles of circularity (case studies/best practice examples), assessment tools (indicators, methodologies,) practitioners' feedback, the barriers and drivers for the adoption of a circular economy, policies, business models and new forms of shared services, etc. Research topics may include (but are not limited to) the following for the built environment:

- Circular economy;
- Sharing economy (business model, product service system, etc.);
- Circular economy policies;
- Reuse/repair/remanufacturing;
- Technological innovation toward sustainability;
- Digitalization for the circular economy;
- Construction and demolition waste management;
- "Design for" approaches (design for deconstruction, design for disassembly, DfMA, etc);
- Building refurbishment, adaptability and flexibility;
- Closed loop, reverse logistics;
- Circular processes;
- Circularity assessment, circularity indicators;
- Urban mining, material banks, anthropogenic stocks;
- Examples of circular buildings (best practice/case studies).

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
