

## Special Issue

# Advances in Sustainable Conservation of Architectural and Cultural Heritage

### Message from the Guest Editors

We are pleased to invite you to contribute to this Special Issue entitled “The Sustainability of Architectural and Cultural Heritage”, which seeks to explore innovative approaches and emerging challenges in ensuring the long-term preservation and resilience of our built heritage. This Special Issue aims to highlight how recent advancements in materials, intervention methods, diagnostic techniques, and management strategies contribute to the sustainable conservation of heritage sites. Topics of interest include, but are not limited to, the following:

- Development or improvement of materials and sustainable technologies used in architectural and cultural heritage conservation
- Use of nanomaterials and eco-compatible solutions that enhance durability and reduce environmental impact
- Application of non-invasive diagnostic and monitoring techniques for early detection of pathologies and condition assessment
- Innovative and sustainable intervention methods that minimize environmental risk
- Optimization of conservation protocols and treatment procedures
- Integrated management approaches that promote the long-term sustainability of heritage conservation

# About the Journal

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
