Special Issue

Sustainable Economic Intelligent Information Processing

Message from the Guest Editor

This Special Issue seeks to bring together the work of scientists, practitioners, innovators, and entrepreneurs who are in a position to offer valuable perspectives on the particular research area of sustainable economic intelligent information processing. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but not limited to) the following: Intelligent information processing for sustainable economic development Intelligent information processing for circular economy Intelligent information processing for green Supply Chain

Intelligent information processing for energy economic Intelligent information processing for green production Intelligent information processing for safety, security and disaster management

Intelligent information processing for low-carbon Economy

Intelligent information processing for green innovation and knowledge management

Intelligent information processing for climate change and economic development

Intelligent information processing for economic decision-making

Intelligent information processing for ecological economy We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario Institute of Technology, Oshawa, ON L1G OC5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
