

## Special Issue

# Towards Sustainability: The Geochemistry of Groundwater and Surface Water Systems

### Message from the Guest Editors

This Special Issue aims to publish high-quality geochemical studies on groundwater and surface water systems. Geochemical methods coupled with other approaches (such as laboratory and field experiments, numerical modeling, machine learning, etc.) in order to understand interactions between surface water and groundwater systems are highly welcome in this Special Issue. In this Special Issue, original research articles and reviews are welcome, and research areas may include (but are not limited to) the following:

- The application of geochemical methods in surface water and groundwater quality evolution;
- Multiple approaches to understanding surface water and groundwater interactions;
- Geological disasters induced by the interaction between surface water and groundwater;
- Tracing water and substance circulation via isotopes;
- Te geochemistry of thermal water circulation;
- Geological disasters related to the water cycle

---

### Guest Editors

Prof. Dr. Shen Qu

Inner Mongolia Key Laboratory of River and Lake Ecology, School of Ecology and Environment, Inner Mongolia University, Hohhot 010021, China

Dr. Shouchuan Zhang

Chinese Academy of Geological Sciences, Beijing, China

Dr. Xiaohui Ren

College of Desert Control Science and Engineering, Inner Mongolia Agricultural University, Hohhot, China

---

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

---

### Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario  
Institute of Technology, Oshawa, ON L1G 0C5, Canada

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
