Sustainable, Safe and Healthy Workplaces after COVID-19: Lessons Learned for the Future of Work in the Post-pandemic Era

Message from the Guest Editors

Changes in the world of work have been accelerated by COVID-19, and lessons learned from the management of the pandemic will be the tipping point on which the future of work activities will be improved and re-designed. In this framework, the aim of this Special Issue is to collect research studies that analyse the impact of COVID-19 risk management with the view to promote healthy, safe and sustainable workplaces.

In this Special Issue, the submission of original research articles and reviews is welcome to explore the impact of lessons learned from COVID-19 to promote safe, healthy and sustainable workplaces. Research areas may include (but are not limited to):

- Work organisation, remote work and flexibility;
- The allocation and re-design of working spaces;
- Indoor air quality improvement;
- Sanitisation procedures and the mitigation of biological risk;
- Health surveillance for fragile and/or vulnerable workers;
- Specific procedures for healthcare workers;
- Collective and personal protective equipment;
- Psychosocial risk management;
- Engagement and participative approach of OSH players;
- Training activities;
- Methods for assessing and managing emerging risks.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
