

Special Issue

Sustainable Safety for Urban Areas: Advancing Solutions for Safer and More Inclusive Mobility

Message from the Guest Editor

Cities worldwide are experiencing a profound transformation in the way people move: while this transition towards greener, healthier, and more efficient transport offers opportunities to improve quality of life, it also creates challenges for ensuring safe, equitable, and inclusive mobility. This Special Issue welcomes contributions on safer and more inclusive urban mobility, including the implementation of Sustainable Safety and Safe System principles; road safety assessment and management; micromobility safety; human-centered street design; data-driven safety analysis; human factors; vulnerable and underrepresented road users; connected and automated mobility; and the integration of road safety into sustainable urban mobility planning. We encourage innovative and interdisciplinary research supporting cities where sustainability, safety, inclusiveness, and accessibility are mutually reinforcing.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon
School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
