Special Issue

Environmental Pollution and Monitoring

Message from the Guest Editor

We are releasing a Special Issue of *Sustainability* titled "Environmental Pollution and Monitoring", and are calling for the submission of quality review or original research articles. This Issue aims to publish highly rated and innovative manuscripts describing the pollution and health effects of foreign materials, such as physical, chemical and biological constituents in environmental samples. The scope of this Special Issue will cover the deleterious effects of these foreign substances on environmental media such as hydrosphere (water pollution), lithosphere (soil pollution), atmosphere (air pollution), and biosphere (plants and animals).

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
