

Special Issue

Marine Industry and Environmental Sustainability Under the Belt and Road Initiative

Message from the Guest Editors

The Belt and Road initiative not only creates a platform for economic cooperation in the world with the widest extension and largest scale but also provides a new opportunity and direction for promoting the sustainable development of the marine industry, aiming at building a “Sustainable Blue Partnership Cooperation Network”. Therefore, it is necessary to summarize the development experience of the marine industry and environmental sustainable development of the countries along the Belt and Road, and research the advantage mode of marine industry development, to achieve the goal of building “a community with a shared future of mankind” with “Sustainable Blue Partnership Cooperation Network”. This special issue aims to explore the mode of cooperation of the marine industry in the countries along the Belt and Road, analyze the factors affecting the sustainable development of the marine industry and the environment, and promote the sustainable development of the coastal and ocean through the Belt and Road initiative.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen
