

## Special Issue

# Shaping Future Cities: Turning Assessment into Strategies and Actions for Resilience

### Message from the Guest Editors

The aim of this Special Issue is to bring together contributions that explore pathways for the green transition of cities through urban and architectural plans, projects, and policies that foster climate neutrality and resilience. The objective is to highlight the added value of biophilic design approaches and the role of evaluation tools in supporting informed decision-making. In this Special Issue, original research articles and reviews are welcome, especially those related to operative, theoretical, and case studies on assessment, planning, and design in support of urban climate adaptation processes. Research areas may include (but are not limited to) the following:

- Multicriteria decision support approaches;
- Value creation;
- Nature-based solutions;
- Ecosystem approach;
- Climate resilient cities;
- Policy-making;
- Sustainable urban policies;
- Sustainability assessment;
- Cost-benefit evaluation;
- Mixed methods.

We look forward to receiving your contributions.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
