

Special Issue

Advances in Data-Driven Transportation Systems: Emerging Trends, Challenges, and Applications

Message from the Guest Editors

We invite contributions to our Special Issue, 'Advances in Data-Driven Transportation Systems: Emerging Trends, Challenges, and Applications'. This issue explores how data-driven methodologies can enhance sustainable transportation development. We seek original articles on the impact of big data analytics, intelligent transportation systems, and advanced modeling techniques in transportation planning and operations. Topics of interest include:

- Real-time traffic management
- Smart city applications
- AI-driven mobility optimization
- Sustainable routing
- Data-driven safety assessments
- Integration of autonomous vehicles
- Multi-modal planning
- Innovations in public transport management

We welcome original research, reviews, and case studies to foster interdisciplinary dialogue and advance this dynamic field. We look forward to your contributions!

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
