

Special Issue

Challenges in Sustainable Plant Cultivation and Produce Supply

Message from the Guest Editor

The open access journal *Sustainability* (ISSN 2071-1050, IF 3.889) is pleased to announce a new Special Issue entitled "Challenges in Sustainable Plant Cultivation and Produce Supply". The submission deadline is 31 December 2023. Manuscripts may be submitted from now until 31 December 2023, as papers will be published on an ongoing basis. The topics of the manuscripts can include (but are not limited to) reductions of fertilizers, pesticides, energy and water, water saving irrigation, alternatives and recycling of agricultural plastics for plant cultivation, measures to improve humus, savings in the use of fossil fuel and energy during cultivation and storage of arable crops, fruit and vegetables of temperate zone as well as (sub-)tropical crops and storage of the harvested produce. I would appreciate if you could submit short abstracts of your work as soon as possible in order for them to be included in the list of planned papers, which will be uploaded on the SI website. If you have questions or require more information, please do not hesitate to contact me.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA
