

Special Issue

Biodiversity and Ecosystem Services in Agriculture, Forestry and Urban Ecosystems

Message from the Guest Editor

This Special Issue is focused on biodiversity and ecosystem services in agriculture, forestry and urban ecosystems. We welcome submissions in all areas related to terrestrial biodiversity dealing with theoretical aspects, new research methods, observation data analysis, and predictive modelling, but we particularly encourage submissions on the following topics:

- Ecosystems, ecosystem services and biodiversity of terrestrial ecosystems;
- Phylogenetic and/or functional abundance and diversity;
- Monitoring of biodiversity, ecosystem processes and environmental drivers;
- Effects of biogeography on community diversity;
- Effects of climate change on community diversity and species distributions;
- Effects of environmental factors on biodiversity;
- Aromatic and medicinal plants.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
