## **Special Issue**

# Advancing Sustainability in Geotechnical Engineering

## Message from the Guest Editors

The aim of Advancing Sustainability in Geotechnical Engineering is to require geotechnical engineers to actively respond to various natural disasters, implement energy conservation and emission reduction, and achieve friendly, coordinated and sustainable development of geotechnical engineering and ecological environment during the investigation, design and construction stage. In addition, in this special issue, we hope to showcase original and innovative papers highlighting the most challenging new methods, materials, equipment and techniques relevant to promoting sustainable development in geotechnical engineering.

- New methods of geotechnical exploration, design and construction
- Innovative equipment for in-situ testing of geotechnical engineering
- Multi-phase and multi-field coupling analysis of rock and soil mass
- Mechanical properties and applications of new geocomposite materials
- Stability analysis and intelligent control technology of geotechnical engineering
- Contaminant migration and remediation technology of rock and soil mass
- Reinforcement technology of mining damaged rock and soil mass
- Cross scale analysis and control of geotechnical disasters

## **About the Journal**

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

#### **Author Benefits**

## Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

## **High Visibility:**

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
