Special Issue

Advances in Sustainability Research at the University of Malta

Message from the Guest Editors

This Special Issue focuses on research advances carried out at the University of Malta on the topic of sustainability in its widest meaning, in line with the SDGs. With over 100 scholars from the University of Malta who have authored or co-authored papers on this topic, it is natural to dedicate a Special Issue that addresses sustainability in a holistic and synergistic manner for different facets from the sustainable energy. water and food supply nexus to sustainable communities, health, industry, seas and land. The contribution to the science of climate change and climate mitigation, as well as the associated horizontal topics such as social, political and economic aspects, can all be addressed. The papers will help to bring insights and solutions to pressing issues that affect the local, regional, national, European and international sustainability. This Special Issue is open to all potential authors working at the University of Malta and to their co-authors from other institutions.

Guest Editors

Prof. Dr. Charles Yousif

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA
