Special Issue

Wastewater Purification, Treatment, and Reuse

Message from the Guest Editors

This Special Issue on "Wastewater purification, treatment, and reuse" focuses on wastewater treatment, resource recovery, and reclaimed water. The aim is to disseminate the latest researches in these interdisciplinary areas related to sustainable development in wastewater treatment technologies. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but not limited to) the following:

- Low-carbon and sustainable technologies ir wastewater treatment;
- Bioresources and energy recovery from wastewater;
- Environmental functional materials in pollutants removal:
- Wastewater sludge treatment and resources recovery;
- Reclaimed water uses, storage, and safety.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
