

## Special Issue

# Wastewater Reuse for Irrigation of Rural and Urban Ecosystem: Applications and Future Perspectives

### Message from the Guest Editors

This special issue aims to investigate the effects of wastewater reuse in agriculture (strategy of irrigation and fertilization, yield and quality), with a particular focus on unexplored and new topics (i.e. Contaminants of Emerging Concern - CECs, microplastics, shifts in microbial community of plant and soil) related to wastewater management in order to increase knowledge on this issue and assure a safe reuse of wastewater for human and environmental health.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
