

## Special Issue

# Sustainable Composite Materials and Manufacturing Technology

### Message from the Guest Editors

We are establishing this Special Issue to curate the recent advances in sustainable composites from both as aspects of their materials and manufacturing. In this Special Issue, articles at any stage on the research and development of composite materials and their manufacturing are welcome. Research areas may include (but are not limited to) the following:

- Composite materials;
- Natural fibre composites;
- Nanocomposites;
- Surfaces and interfaces;
- Manufacturing technology;
- Properties, characterisation, and testing;
- Modelling and simulations;
- Composites in various applications (including transportation, energy, construction, medical, and lifestyle);
- The recycling of composites.

We look forward to receiving your contributions.

---

# About the Journal

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
