

Special Issue

Sustainable Materials Science and Technology

Message from the Guest Editors

The need for sustainability in Materials Science and Technology is in the focus of this Issue, with particular emphasis on the need for multifunctional applications of polymer composites, biopolymers, capacitors, and hydrogels. The aim of this Special Issue is to demonstrate materials and technology that show sustainability and may be used as advanced materials applicable in green technology. Sensors and actuators of materials functionality; Energy storage of sustainable materials; Sustainability of polymer composites; Green Technology of Materials that maintain their multi-functionality. In this Special Issue, original research articles and reviews are welcome. I look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
