Special Issue

Sustainable Ecological Restoration Materials and Technologies

Message from the Guest Editors

This Special Issue focuses on interdisciplinary research that addresses the complex interplay between the environmental, social, and economic dimensions of sustainability. This Special Issue will contribute to the journal's scope by providing evidence-based insights and practical applications that underline the critical role of sustainable practices in ecological restoration. We hope to encourage discourse, foster collaboration, and inspire further research within this essential and evolving domain. We invite original research articles and critical reviews on topics related (but not limited) to:

- Soil and water conservation materials and technologies;
- Desertification combating materials and technologies;
- Soil remediation and improvement materials and technologies;
- Mine restoration materials and technologies;
- Ecosystem monitoring and assessment technologies.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario Institute of Technology, Oshawa, ON L1G OC5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
