

## Special Issue

# Psychological Well-Being from the Perspective of Sustainable Development

### Message from the Guest Editors

This Special Issue aims to emphasise the importance of building a sustainable and committed community to improve the psychological well-being of individuals. This can be demonstrated by presenting concept papers and empirical studies on this topic. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following: health and well-being; social psychology; sustainable development; sustainable communities; social inclusion; co-creation; achievement of SDGs.

#### Keywords

- psychological well-being
- sustainability
- psychological sustainability
- sustainable communities
- sustainable development

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
