

## Special Issue

# Greening the Atmosphere: Strategies for Air Pollution and Global Sustainability

### Message from the Guest Editors

We proposed a Special Issue on the topic of “Greening the Atmosphere: Strategies for Air Pollution and Global Sustainability” in *Sustainability*. In this Special Issue, we welcome original research articles and reviews.

Research areas may include the following:

- Estimation of global air pollutant emissions based on multiple methods.
- 2. The sustainable development strategies of air pollution control in different regions.
- Economic and social impacts of air pollutant emissions.

We look forward to receiving your contributions.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
