

## Special Issue

# Transport Planning and Governance for Resilient Cities

### Message from the Guest Editors

The Special Issue aims to gain insights into the sustainable development of urban transportation systems. We encourage researchers to contribute original and innovative research on methods, technologies, perspectives, and policies on transport planning and governance for resilient cities. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- Data analysis in transportation resilience;
- Transport planning method for resilient cities;
- Traffic control and management to enhance city resilience;
- Policies for city transportation resilience enhancement;
- Reviews and case studies on urban transport resilience.

We look forward to receiving your contributions.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
