

## Special Issue

# The Electric Power Technologies: Today and Tomorrow

### Message from the Guest Editor

This Special Issue aims to present, the latest issues regarding the electric power technologies and the meaning of further developments in the field. Issues to be considered here include, among others:

- Modern trends in railway electric traction systems;
- Modern electrical technologies in aeronautical systems;
- Modern electrical technologies in space systems;
- Trends in advanced modeling and simulation of electrical equipment;
- Modern electrical technologies in urban transport systems;
- Advanced systems for complex monitoring of energy power groups;
- Modern technologies regarding the integration of renewable energies in smart electrical networks;
- Modern numerical processing in mono- and three-phase systems;
- Advanced diagnosis in modern electrical systems;
- Increased energy efficiency at sources, at loads and on electricity transmission lines;
- Modern technologies regarding the mobile phones.

---

### Guest Editor

Prof. Dr. Petre-Marian Nicolae

Electrical Engineering, Energetic and Aeronautics Department, Faculty of Electrical Engineering, University of Craiova, 200585 Craiova, Romania

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

---

### Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario  
Institute of Technology, Oshawa, ON L1G 0C5, Canada

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
