

Special Issue

Soil Salinity Risks Assessment Using Hybrid Machine Learning Approaches

Message from the Guest Editors

Dear Colleagues: In this Special Issue, we are seeking original research articles and reviews. We encourage contributions from multidisciplinary and multimethod studies. The aim is to provide new insights for the further monitoring, assessment, prevention, and management of soil salinization, thus supporting and advancing SDGs. Research areas may include (but are not limited to) the following:

- Proximal and/or remote sensing monitor and assess soil salinity (optical, microwave, thermal infrared, LIDAR, etc.);
- Digital soil mapping;
- Simulation of soil salinization process;
- Soil salinity stress for crop;
- Soil salinization and hydrological processes;
- Driving factors of soil salinization;
- Effect of climate change on soil salinization;
- Soil salinity and soil variation

We look forward to receiving your contributions. s

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
