# **Special Issue**

# Integrated Sustainability Management Across Processes, Supply Chains, and Innovation Systems as Drivers of Change

# Message from the Guest Editors

In the face of growing geopolitical tensions, the climate crisis, limited resources, and increasing regulatory requirements (e.g., CSRD, CSDDD, Fit for 55), companies are compelled to transform the way they design, implement, and manage their processes, supply chains, and innovations. Sustainability is no longer a peripheral (optional) concern—it is becoming the core of business process management, both regulatory- and society-driven, and serves as a catalyst for profound systemic change. This Special Issue responds to the growing need for in-depth research on integrated sustainability management across the full range of organizational activities—from strategies around supply chains, processes, and operations, to innovation. Our aim is to bring together interdisciplinary scientific papers and practical analyses that offer new insights into how to build resilience, efficiency, and accountability within complex organizational systems and value chains. We welcome submissions of empirical research, case studies, and theoretical papers that present innovative approaches, models, and methods for sustainable development, with a particular emphasis on integration and transformation.

# **About the Journal**

# Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

### **Author Benefits**

# Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

# **High Visibility:**

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
