

Special Issue

Towards Sustainability: Advanced Research on Renewable Energy Policy and Smart City

Message from the Guest Editors

In the dynamic and evolving landscape of global sustainability, the integration of renewable energy policies within the smart city framework is identified as a critical frontier in both research and application.

Introduction: The necessity for sustainable development is unprecedented, driven by the pressing exigencies of climate change, urbanization, and resource depletion.

Aim: The primary aim of this Special Issue is to cultivate a profound understanding of the effective integration of renewable energy policies within smart cities in order to advance sustainable development. Suggest themes: Innovative renewable energy technologies and their applicability within urban settings; Policy frameworks and governance models for integrating renewable energy solutions in smart cities; Case studies of the successful implementation of renewable energy policies in urban areas; The socio-economic impacts of renewable energy policies within the smart city context; Future-oriented studies on the evolution of smart cities with a focus on sustainability and energy efficiency; Interdisciplinary approaches to addressing the challenges of scaling renewable energy solutions in urban environments.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
