

Special Issue

Artificial Intelligence and Smart Technologies for Achieving Sustainable Goals

Message from the Guest Editors

In this Special Issue, we invite papers that explore the potential of AI and smart technologies for sustainable development. We are particularly interested in papers that describe applications of these technologies that have the potential to make a real difference to the achievement of SDGs. We welcome papers from all sectors, including academia, industry, government, and non-governmental organizations (NGOs). Topics of interest include, but are not limited to, the following:

- Applications of AI and smart technologies in sustainable development;
- The potential of AI and smart technologies to help achieve the SDGs;
- Barriers and challenges to the use of AI and smart technologies for sustainable development;
- Future directions for the use of AI and smart technologies in sustainable development;
- Ethical considerations in the use of AI and smart technologies for sustainable development;
- The role of AI and smart technologies in sustainable development policy.

Guest Editors

Prof. Dr. Hend Al-Khalifa

Dr. Duaa AlSaeed

Dr. Heyam Al-Baity

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
