

Special Issue

Sustainable Strategic Management of Business

Message from the Guest Editors

While a reasonable volume of research work has been conducted on sustainable strategic management, there is still a gap in understanding how sustainability can be incorporated with the strategy of business management. More research and development are also needed to overcome challenges concerning strategic perspectives of sustainable business management, particularly those that create value to future generations. Therefore, the goal of this Special Issue is to advance theoretical and applicative research in all fields of sustainable strategic management. As such, the Special Issue offers a venue for papers that help increase our understanding of how the sustainability concept will transform strategic management practices in business.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA
