Special Issue

Sustainable Animal Nutrition and Feeding Strategies for Enhanced Livestock Production and Environmental Impact Reduction

Message from the Guest Editor

With the global population projected to reach 9.8 billion by 2050, the demand for animal-based food will rise, increasing pressure on resources and the environment. Sustainable livestock production is key to meeting SDG 2 (Zero Hunger), SDG 12 (Responsible Consumption), SDG 13 (Climate Action), and SDG 15 (Life on Land). This Special Issue explores innovative approaches to sustainable animal nutrition, including precision feeding, alternative feed ingredients, circular economy applications, microbiome-targeted diets, and methane-reducing strategies. Emphasizing life cycle assessments, it aims to support a resilient, resource-efficient livestock sector that ensures food security while protecting the planet.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
