# **Special Issue**

# Educational Research in the Era of 2030 Agenda for Sustainable Development (2nd Edition)

### Message from the Guest Editors

Our modern communities are constantly faced with enormous environmental and socioeconomic challenges and, unfortunately, the initiation of environmental education in the late 1960s and early 1970s, in both formal and non-formal education settings. and its later evolution, did not prove to be the most successful tool to improve our relationship with nature. This is mainly due to what has potentially been an improper introduction of environmental education/education for sustainable development worldwide. In 2015 the United Nations member states approved a promising action plan to promote sustainability until the year 2030, known as the 2030 Agenda for Sustainable Development. This framework integrates 17 Sustainable Development Goals, aiming to cover all aspects of sustainability through several targets, identified as objectives to be accomplished by the end of the third decade of the 21st century. Consequently, the main purpose of this Special Issue is to convey the best practices of current educational research, seeking to contribute to the achievement of the 17 Sustainable Development Goals.

## **About the Journal**

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

#### **Author Benefits**

### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

### **High Visibility:**

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
