Innovative Approaches in Construction: Between Circular Economy and Industrial Symbiosis

Message from the Guest Editor

Sustainability is an international peer-reviewed academic journal, indexed by the [Science Citation Index Expanded](#), [Social Sciences Citation Index](#) (Web of Science), [Scopus](#) and other notable databases, with an Impact Factor of 3.9 (2022); its Five-Year Impact Factor is 4.0 (2022). This Special Issue aims to delve into the challenges faced by the construction industry—once considered to be an obsolete sector but now showing signs of revival—in the 21st century. How can the scientific community improve the features of construction materials whilst taking into account the aspects of sustainability? What methodologies and systems may be put into place to facilitate more efficient waste management? How can the professional world contribute towards sustainable construction with effective intelligent responses, energy-efficient systems and improved performance? Which maintenance strategies may be employed for competitive life-cycle assessment? How can marketing provide an active pulse to novel technologies' diffusion and application? These are some of the questions that this Special Issue seeks to address.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
