

# Special Issue

## Wildlife Management, Conservation and Sustainability

### Message from the Guest Editors

This Special Issue is focused on highlighting the different aspects surrounding wildlife management related to terrestrial and aquatic fauna resources with particular attention to species of conservation interest of each class. In this context, we want to deepen the monitoring and wildlife management, eco-ethological studies and research, hunting management and planning, the interactions between wild animals and anthropogenic activities, and the use of models on distribution and population dynamics. Suggest themes:

- Management of conflicts among wildlife, territory, and anthropogenic activities;
- Wild species and ecosystems;
- Management/conservation;
- Biodiversity conservation;
- Biological diversity;
- Wild fauna and protected areas;
- Evaluation of damages determined by wild ungulates to vegetation in forests and in agricultural exploitation;
- Relationship predator/prey and evaluation of the trophic cascade;
- Strategies for managing wild boar at different stages of an epidemic of ASF;
- Wildlife and zoonotic disease.

---

### Guest Editors

Prof. Dr. Nicoletta Miraglia

Department of Agriculture, Environment, Foods, Molise University,  
86100 Campobasso, Italy

Dr. Paolo Varuzza

Department of Veterinary Medicine and Animal Production, University  
of Naples Federico II, Via Mezzocannone 8, 80134 Napoli, NA, Italy

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
