

Special Issue

Intelligent Food Information and Communication for Sustainable Food Consumption

Message from the Guest Editors

Topics of interest include, but are not limited to:

- The role of emerging Information and Communication Technologies in empowering consumers towards sustainable food consumption patterns.
- The impact of food information services on consumer-perceived food value.
- Consumers' behavior in sustainable food consumption patterns
- Consumers' readiness towards emerging food information services and the challenges they face in accessing and using these services.
- The role of digital technologies in supporting food literacy, education, and information for sustainable food consumption.
- Food communication strategies for the promotion of sustainable food consumption behavior.
- Policies, guidelines and strategies to support the development and implementation of intelligent food information systems for sustainable food consumption.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.
