

Special Issue

Sustainable Energy Economics: The Path to a Renewable Future

Message from the Guest Editor

In recent decades, climate change and global warming have become a serious threat. To cope with these environmental issues, it is essential to deploy renewable energy sources. The development of sustainable energy will reduce our dependence on fossil fuel sources, enhance socio-economic development and mitigate the issue of environmental degradation. This Special Issue invites researchers, experts and policymakers to present their research findings, innovative solutions and research regarding the development of future renewable energy policies related to sustainable energy. Assessing the impact of sustainable energy on socio-economic and environmental factors could also provide valuable insights regarding the development of energy, as well as effective policy implications. Therefore, the scope of this Special Issue includes, but is not limited to, the following topics:

- Energy storage and sustainability
- Renewable energy Sources
- Energy and Economic growth
- Climate Change

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
