

## Special Issue

# Sustainable Energy Economics: The Path to a Renewable Future

### Message from the Guest Editor

In recent decades, climate change and global warming have become a serious threat. To cope with these environmental issues, it is essential to deploy renewable energy sources. The development of sustainable energy will reduce our dependence on fossil fuel sources, enhance socio-economic development and mitigate the issue of environmental degradation. This Special Issue invites researchers, experts and policymakers to present their research findings, innovative solutions and research regarding the development of future renewable energy policies related to sustainable energy. Assessing the impact of sustainable energy on socio-economic and environmental factors could also provide valuable insights regarding the development of energy, as well as effective policy implications. Therefore, the scope of this Special Issue includes, but is not limited to, the following topics:

- Energy storage and sustainability
- Renewable energy Sources
- Energy and Economic growth
- Climate Change

# About the Journal

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
