

## Special Issue

# Challenges in Sustainable and Eco-Friendly Advanced Material

### Message from the Guest Editors

Dear Colleagues: With the vast increase in demand for various advanced materials, resource scarcity and environmental pollution have become two serious challenges. This Special Issue aims to cover studies on the design, preparation, and application of sustainable and eco-friendly advanced materials. Research areas may include (but are not limited to) the following:

- Preparation and application of biomass materials;
- Preparation and applications of carbon materials;
- Development of degradable polymer materials;
- Non-noble metal based heterogeneous catalysts/electrocatalysts/photocatalysts;
- Green and sustainable nano/micro materials;
- Mass production of green and sustainable materials;
- Green and sustainable materials for biomedical, energy (batteries, catalysis, photovoltaics, etc.), and environmental (air/water purification, CO<sub>2</sub> capture, etc.) applications.

We look forward to receiving your contributions.

---

### Guest Editors

Prof. Dr. Chunzheng Wu

Department of Chemistry and Materials Engineering, Zhejiang A&F University, Hangzhou 311300, China

Dr. Zi-Yian Lim

Division of Natural and Applied Sciences, Duke Kunshan University, Kunshan 215316, China

---

### Deadline for manuscript submissions

closed (8 November 2023)

# About the Journal

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
