

Special Issue

Safe and Sustainable Built Environment: Education, Policy and Practice

Message from the Guest Editors

- Creating a safe and sustainable built environment remains a global problem. Construction and built environment challenges include: housing unaffordability, overcrowding, unsustainable resource use, pollution, inadequate building standards and practices, poor maintenance, and increased risks of flooding, heat stress, structural failure, fires, and health hazards. This special issue focuses on shaping a future built environment through government policy, industry practice and educating the future workforce. Relevant topics that align with the journal's subject areas include:
- Air and water pollution
- Education and awareness of sustainability
- Misuse of land, desertification and drought
- New and renewable sources of energy
- Population explosion and urbanisation
- Sustainable energy preservation and regeneration methods
- The impact of health, safety, security and disaster management on sustainability
- Unsustainable patterns of production and consumption
- This Special Issue calls for research on all topics relevant to transitioning to a safer and more sustainable built environment through education, policy and practice.
- I look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
