Sustainable Agribusiness and Agri-food Prospects

Message from the Guest Editor

The expression 'agribusiness' was coined in the 1950s to evoke the range of technological and socio-economic transformations of agriculture under national and international development pressures. One main consequence was that the 'business of the agro' gradually became less about sustenance and health and significantly more concerned with short-term financial gains and the legitimisation of intensive agri-food systems. There is nothing new in the fact that food is purchased and sold, given that agricultural markets had existed for many centuries. The novelty is that the operational and commercial apparatus of large agrifood companies has come to be seen as natural and constantly re-naturalised, while other fundamental properties of food and agriculture—such as nutrition, the well-being of farmers and their families, the preservation of local knowledge and cultural practices, the biological equilibrium necessary for sustained harvests-are all being lost due to the imperatives of profit, low costs and consumer satisfaction.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
