

Special Issue

Agricultural and Food Systems Sustainability: The Complex Challenge of Losses and Waste

Message from the Guest Editors

For this Special Issue, we welcome conceptual and empirical studies that analyze actions:

- To reduce losses of products and byproducts at the farm level;
- To promote sustainable agriculture;
- To provide insights into the relationships between consumers and household food waste behaviors;
- To evaluate the market potential of food obtained from byproducts;
- To promote the reuse of waste and byproducts to increase the nutritional value of food;
- To underline causes of food waste and its correlation with climate change, agriculture, and population growth.

The papers must show originality and make a significant contribution to the scope of the Special Issue.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
